

2019학년도 1학기 뇌와 인공지능 콜로키엄

How to Get Funding for Your Tech Startup

연사: 이정진 차장

소속: 현대기술투자

일시: 2019년 5월 27일(월) 17:00~18:00

장소: 우정정보관 601호

초록:

Apple, Google, Oracle, PayPal, YouTube, Instagram, Yahoo and WhatsApp. Can you find the commonality among the startup superstars? The list is from the investment portfolio of Sequoia Capital, one of the most well-known American venture capital firms founded by Don Valentine in 1972. Venture capital is a form of financing, but it is more than just a financing method in a startup world. It nurtures startups by providing timely funding and also helps startups to expand their business by proposing new business strategies.

JungJin Lee, a Deputy General Manager at Hyundai Venture Investment Corp., will describe the startup ecosystem in Korea, emphasizing VC business based on his experience as a venture capitalist and giving a message to tech startups searching for funding opportunities.
